**Casalini**  
**libri**

We are pleased to present our first promotional catalogue of new Greek titles from a variety of subjects in the humanities and social sciences. The catalogue features approximately 400 titles divided into two booklets. We hope you find the titles of interest and shall be happy to handle your firm and standing orders for these or any Greek publications. Orders can be placed online at [www.casalini.it](http://www.casalini.it) via the free-text order function or according to your library's standard order procedures. Status of all orders placed with Casalini can be checked online through our I Libri International databases.

We plan to issue promotional catalogues quarterly over the next 12 months and, in the future, we hope to integrate Greek title information into our bibliographical services and make records for Greek titles available in our online databases. To better serve your needs, we would be very grateful for any comments or suggestions you may have with regard to our these catalogues (title data, format and presentation, subject coverage, etc.); please send comments to [promotions@casalini.it](mailto:promotions@casalini.it). We also offer approval plan coverage of Greek imprints and would be happy to learn more about your specific subject and budget requirements.

We welcome any input you have for the development of our European supply services and look forward to receiving your orders.

We are pleased to present our first promotional catalogue of new Greek titles from a variety of subjects in the humanities and social sciences. The catalogue features approximately 400 titles divided into two booklets. We hope you find the titles of interest and shall be happy to handle your firm and standing orders for these or any Greek publications. Orders can be placed online at [www.casalini.it](http://www.casalini.it) via the free-text order function or according to your library's standard order procedures. Status of all orders placed with Casalini can be checked online through our I Libri International databases.

We plan to issue promotional catalogues quarterly over the next 12 months and, in the future, we hope to integrate Greek title information into our bibliographical services and make records for Greek titles available in our online databases. To better serve your needs, we would be very grateful for any comments or suggestions you may have with regard to our these catalogues (title data, format and presentation, subject coverage, etc.); please send comments to [promotions@casalini.it](mailto:promotions@casalini.it). We also offer approval plan coverage of Greek imprints and would be happy to learn more about your specific subject and budget requirements.

We welcome any input you have for the development of our European supply services and look forward to receiving your orders.
