

European BIBFRAME Tutorial 2018 Introduction

Leif Andresen – Royal Danish Library

Organizer Group European BIBFRAME Workshop

**European
BIBFRAME
Workshop**

European BIBFRAME Tutorial 2018

- The Aim of the European BIBFRAME Tutorial 2018 is to introduce the BIBFRAME data model and the current status of BIBFRAME implementations.
- The tutorial will include practical example conversion and presentation of BIBFRAME editors.
- Participants are expected to have knowledge about Linked Data and RDF technologies. The tutorial will not include introduction to Linked Data / Semantic Web or to RDF.
- The tutorial participants have to meet the expectations.

Presentations today

- Sally McCallum: BIBFRAME Overview – Goals and Data Model
- Philip E. Schreur: Essential elements in a transitional workflow from MARC to Linked Data
- Tiziana Possemato: The mapping and the conversion workflow from MARC to BIBFRAME
- Sally McCallum: MARC to BIBFRAME – reconciliation, merge, and match
- Niklas Lindström: Conversion – experience from Swedish Union Catalogue
- Nancy Lorimer: CEDAR: an open source linked data editor
- Jodi Williamschen: The Library of Congress BIBFRAME Editor
- Isabel Quintana: Creating new authorities and new identifiers
