Casalini Libri offers a range of services for the supply of periodicals published in Italy, France, Spain, Portugal, Greece and other European countries.

Our consolidated service

ensures maximum efficiency and means that we can maintain a regular supply of issues according to the calendar agreed with each individual library. Any missing issues are followed up with publishers immediately in order to avoid any delays.

Back issues

and issues that are no longer in print can be searched for and supplied upon request. We can obtain and supply non-commercial works and publications from small publishers, museums and not-for-profit organisations.

Irregular publications

are managed by a dedicated department in constant contact with publishers to make sure that all volumes are obtained upon publication.

First issues of new journals

are profiled by our bibliographers and included in our New Title Information alerts, based on your areas of interest.

Subscriptions and renewals

are handled on a calendar-year basis. Updated subscriptions lists are provided in June and renewal confirmation requested by 31st October in order to guarantee timely and consistent supply.

Journal processing

options are available for fully shelf-ready supply.

E-journals

are also included in our subscription service and follows the same workflows as for print publications. We handle all kinds of licence agreements for both print, multimedia and online content, and include a follow-up to ensure that access is enabled.

Torrossa digital library

provides access to content from over 265 Italian, Spanish, French and Portuguese publishers. It currently hosts over 1,000 e-journals.
