

# EURIG annual meeting 2017

## Florence and Fiesole, 8-10 May 2017

### DEVELOPMENTS IN RDA CATALOGUING

The European Resource Description and Access Interest Group (EURIG) evolved from informal discussions between European national libraries concerned with the development, translation and implementation of Resource Description and Access (RDA). EURIG provides a valuable collaborative space for the European library community as they grapple with translation and implementation and engage in RDA's continuing development. The group exists to promote the common professional interests of all users, and potential users, of RDA in Europe.

- *Wednesday 10th May, EURIG Members' Business Meeting. The Business Meeting is restricted to EURIG members and invited observers only.*
