

# Fiesole Collection Development Retreat Series

## Barcelona, Spain - April 25th-27th 2018

### SERVING LEARNING AND SCHOLARSHIP

The **Fiesole Retreat** Series offers a unique opportunity to interact with a select group of colleagues in a relaxed and thoughtful setting. Sessions are carefully balanced to assure equal and exciting representation from three communities: **the library, the publisher, and the vendor**, with viewpoints from North America, the U.K., Continental Europe, Australasia, and other countries.

The theme for this edition, the 20th in the series, is “**Serving Learning and Scholarship**”. The 2018 Fiesole Retreat will once again examine new technologies and service models, as well as issues in collection development and librarianship. We will also look at the role of the Library as a laboratory of co-creation and creative solutions supporting learning. Join us in Barcelona as we explore our evolving role amidst these new directions.

Topics confirmed for 2018 include:

- *Digital Humanities and Digital Scholarship*
- *Special and Cultural Collections*
- *Libraries as Laboratories: Creation, Collaboration, Learning, Openness*
- *Collaboration Enabling Scholarship*

The **preconference**, on 25th April, is entitled **Digital Humanities and Digital Scholarship**. All sessions will be held at two campuses of the Universitat Pompeu Fabra: Campus de la Ciutadella and the newest UPF Poblenou campus. Tours of UPF libraries, as well as nearby museums and digital video facilities will be part of this year’s Retreat. The updated programme is available at [http://www.casalini.it/retreat/retreat\\_2018.html](http://www.casalini.it/retreat/retreat_2018.html)

Retreat places are available on a limited basis. Interested parties should register as early as possible.

Founding Sponsors: Against the Grain, The Charleston Company and Casalini Libri

Local Hosts: Universitat Pompeu Fabra

Since its foundation in the late 1950's, Casalini Libri has been dedicated to the supply of bibliographical services, books and journals to national, academic and public libraries and institutions worldwide. Since its outset Casalini Libri has worked closely with libraries and publishers to develop customized supply and library services that suit the individual needs of our customers around the world.

The Casalini Libri Digital Division, established in January 2000 following an international pilot project, offers innovative electronic publishing services to the highest industry standards, collaborating with European publishers to create and distribute digital publications through the Torrossa full text platform. Editoria Italiana Online and Edición Española Online are among the digital collections of scholarly works hosted on the platform.

The company, headquartered in Fiesole (Florence, Italy), adheres to the ISO 9000 Quality Management System.
